PETUKHOV ZAKHAR

BACKEND DEVELOPER

ABOUT ME

I am a back-end developer from St Petersburg, writing mainly on python3.

I like to go to meetup to improve my skills and weak connections. I teach courses on python for HR for the sake of hobbies, I gave an interview on this subject: https://vc.ru/hr/142628-kak-chat-boty-spasayut-hr-ov-ot-rutiny.

In parallel with my work I am studying js (vue) for a better understanding of the web application processes.

In the future, I want to immerse myself more in asynchronous programming.
